

Software Validation Certificate Vaisala viewLinc Enterprise Server 5.1 SU4

The Vaisala viewLinc Enterprise Server 5.1 Service Update 4 (SU4) software product is commercially available from Vaisala. It has undergone extensive and thorough component and end-to-end testing in accordance with procedures defined in the Vaisala Quality Management System.

All data values reported by the above product have been compared against NIST traceable standards and all (if any) differences were found to be significantly less than the measurement uncertainties of the system.

All facets of the software were thoroughly tested including all data handling and user interface functions.

All known critical issues have been removed from the software.
